PROLOGUE

I was created in the mess, death and horror of war. I am the result of Human sBeing's Greed, Anger and Ignorance, and the belief that they are superior to other human beings.

I am the figment of a writer's mind.

It is common practice among fiction writers to place their characters into real events and use the characters from those events to add context and drama to their fiction. The environment he placed me in was WWII in 1942 at the Auschwitz- Berkeou Concentration Camp, one of the six 'Death Camps' constructed in 1939 after the German Nazi regime invaded and conquered Poland.

The writer Edward R. Silver created the scenario whereby the Nazi SS Hauptsturmführer Joseph Mengele the Non Fictional Dr. responsible for the cruel medical experiments and the extermination of millions of Jews at the Death Camp created a secret program named the Zygogene trials. This fascination with the connection between twins and how their brains worked was a major part of his Anthropoloical studies.

DR. MENGELE
QUICKLY
BECAME
KNOWN
AS...
'THE
ANGEL
OF
DEATH'

Every day he
personally oversaw
the new arrivals
unloaded and
SORTED and SENT
them to their
work or death...

Thousands of
Jewish Men, Women and
Children were herded
into the 6 Polish 'Death
Camps' every day from
Nazi conquered
countries throughout
Europe.

Dr. Joseph Mengele was transferred to Auschwitz in 1940.
As head of research he made use of the abundance of
Human Guinea-pigs
However he didn't arrive at Auschwitz until 1942
